

Laakirchen, 09.05.2014

Dear Customer,

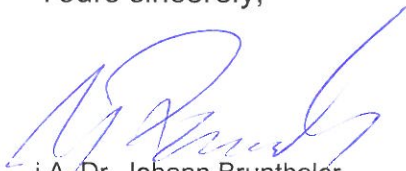

Laakirchen Papier AG is producing TCF-Paper, for which TCF-Pulp is used.

We use no Chlorine Chemicals for bleaching of our main fiber-components Ground Wood and Deinked-Pulp.

As filler we use Calcium Carbonat, which is unbleached and Clay, which is Chlorine free bleached at our suppliers.

Disclaimer: With reference to the present declaration, 'free' means that the final product may contain substances that were in the incoming raw materials as traces or impurities.

Yours sincerely,

i.A./Dr. Johann Brunthaler  
Head Quality Management and  
Development
